Citizant provides trusted **enterprise architecture, application development, business-process engineering, and portfolio management** solutions while supporting the missions of the U.S. Departments of Homeland Security, Treasury, Justice, HUD; GSA; and other Federal agencies. Our interdisciplinary approach – including architectural alignment, information security, system development, and governance – relates directly to critical mission objectives such as improved information sharing and combating fraud, waste, and abuse.

Especially valuable in this challenging budgetary environment, Citizant’s work focuses on **IT portfolio management, business transformation** and legacy system **operation and maintenance**. Our program transition expertise and CMMI-based Quality Management System allow us to **increase delivery confidence** and **reduce delivery risk**.

Easy-to-Use Contract Vehicles

Citizant continuously invests to gain access to our customers' preferred contract vehicles, to make it as easy as possible for our customers to access the expertise, experience, and reach offered by our employees and partners. As government increasingly relies on MACs and BPAs for speed and flexibility in procurement, these investments are part of Citizant's strategic competitive advantage.

Citizant's primary NAICS codes are: 518210, 541511, 541512, 541513, 541519
