

Smarter, Leaner IT and Business Transformation Solutions for National Security Missions

Citizant's experts help civilian & military leaders develop new architectures, manage IT portfolios, and create systems to deliver mission success in the face of budgetary and regulatory pressures.

Citizant provides trusted solutions to support the missions of the U.S. Departments of Homeland Security, Treasury, Justice, Defense, and other Federal agencies. Our services – including **application development, systems modernization, information assurance, enterprise architecture, business-process engineering, portfolio management, and data quality/management** – assist agencies in achieving their mission critical objectives.

Especially valuable in this challenging budgetary environment, Citizant leverages existing infrastructure wherever possible to reduce costs associated with modernization and meet the future needs of our customers. Our program transition expertise and CMMI-based Quality Management System allow us to **increase delivery confidence** and **reduce delivery risk**.

VALUE SUMMARY

- ✓ Employees with decades of relevant experience in our customers' mission areas
- ✓ Rapid delivery of measurable business results
- ✓ Unique, integrated approach to enterprise applications
- ✓ Seamless transition of critical operations
