

CY 2022 Greenhouse Gas Emission

Citizant measured and established a baseline of our greenhouse gas emission for Calendar Year 2022 for all the facilities leased and controlled by the company.

Citizant's GHG emissions report provides measurement of our Scope 1 and Scope 2 emissions, as well as our Scope 3 emissions for CY 2022. Citizant attests that the Scope 1, 2 and 3 GHG emissions were calculated in accordance with the GHG Protocol Corporate Accounting and Reporting Standard.

In calendar year 2022, Citizant's Scope 1 and 2 emissions measured approximately 1.628 metric tons CO₂e. Its Scope 3 emissions measured approximately 2.192 metric tons CO₂e. The entirety of Citizant's emissions are from the electricity used in the facilities we lease, which is commercial office space, and from employee business travel and commuting.

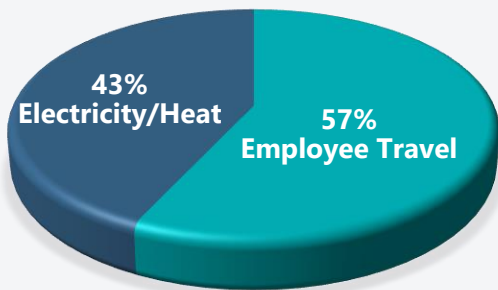

Reduction Targets

Citizant is committed to further reduce our greenhouse gas emissions and our impact on the climate and will establish annual reduction targets beginning in 2023. We believe that establishing and meeting these short and mid-term goals will enable us to achieve a reduction in our emissions to net-zero by or before 2030.
