Proven Experience from Data to Delivery

Citizant's business and technology experts specialize in exposing data, developing fit-for-use modernization solutions, tool optimization, and technology insertion to deliver mission success amidst dynamic budgetary and legislative mandates.

Citizant provides proven solutions and services to support missions in the U.S. Departments of Homeland Security, Treasury, Justice, Defense, and other Federal agencies. Our services – including **Agile software development, DevSecOps automation, IT modernization, process improvement, data management strategies, and IT portfolio/program management** – assist agencies in achieving their mission-critical objectives.

Especially valuable in this challenging budgetary environment, Citizant leverages existing infrastructure and software, wherever possible, to reduce the costs associated with modernization and meet current and future needs. Our program transition expertise, ISO-based Management System, and CMMI-based Delivery System allow us to **increase delivery confidence** and **reduce delivery risk**.

Benefits of Citizant's Capabilities:

- Demonstrated leadership in Agile Transformation, DevSecOps Automation, and Data Engineering
- A Small Business partner with a culture of innovation
- Active and aggressive Task Order response team
- Proven Integrated Management System and Value Delivery System that create high customer satisfaction
- Able to staff and retain employees for hard to fill
